Dear Sirs,

re: Mr Bee, 60 Collum End Rise, Leckhampton - Classic Car Policy
BMW 1502 Registration No: TOY 834R

We have been handed your letter by Mr Bee, your letter dated 10th September 1992.

We must stress that in our opinion the above vehicle is well worth the value of between £5,000 and £6,000 due to the original condition of this vehicle as to one similar which has been restored, because of this it makes it a more valuable car.

Also in our opinion it is by far the best car in the 02 series we have seen in such original condition.

Please do not hesitate to contact us, should you wish to discuss this further.

Yours faithfully,

D.E. Brunsdon
Managing Director

AJEC *Racing*

AJEC RACING AHEAD!

AJEC Racing has completed a successful three years in the racing car business and is enjoying an equally successful fourth. The Managing Director, Dave Brunson, has worked with BMW's for the past 10 years and owns and drives the AJEC Racing Saloons.

1990 proved to be a tremendous racing season for AJEC, winning the British Modified Saloon Car Championship overall and the Castle Combe GT 1.6 to 2.5 litre Championship. This was achieved with the reliability and back up of the AJEC team.

For the 1991 racing season, Dave is currently competing in the ESSO Saloons Car Championship with a BMW M3. He regularly competes in endurance races, his latest one in the ESSO 24 hour Enduro in a Mercedes 190E.

AJEC builds and develops BMW cars and engines for race and road. They offer a comprehensive facility for service and inspections at very competitive rates, all housed within their own workshops, proving all cars whether race or road get the best attention at all times.

To find out if we can be of service to you and your car, why not call in and see us or give us a ring? You can find us at
