What we do

We are a credit broker, not a lender.

We can introduce you to a panel of lenders and their finance products.

We give information to help you decide if a product meets your needs, we do not give independent financial advice.

Finance is subject to status, affordability and lender terms. We cannot promise approval.

How we are paid

We may receive a commission for introducing you to a lender.

We will tell you in writing the exact commission amount in pounds, and how it is calculated, before you sign any finance agreement.

If another broker sits between us and the lender, we will also tell you any commission we receive from them.

We cannot change your interest rate to earn more commission.

Our lender panel and any limits

We work with a limited panel of lenders. You are free to seek finance elsewhere.

If, for any reason, your options are limited to one lender, we will tell you that before you decide.

Wholesale funding

One lender on our panel provides a wholesale stocking facility that helps us hold vehicles in stock. This does not influence our introductions.

Costs and fees

You do not pay us a fee for arranging finance.

Lenders may charge interest and fees under their own terms, these will be shown to you before you decide.

Using your information

We will use your information to obtain quotes and, if you proceed, to submit your application to one or more lenders or a specialist broker.

Lenders may carry out credit checks and share information with credit reference and fraud prevention agencies.

For full details, see our Privacy Notice at <https://www.cullodencarsales.co.uk/privacy-policy>.
