# SAFETY

IT KEEPS YOU SAFE.

When your business involves you being on the road every day, safety is paramount. The **NEW FIORINO** offers all the safety equipment and driving aids such as **ABS** with electronic brake force distribution **EBD**, **ESC** complete with **ASR** (Anti Slip Regulation) and **HBA** (Hydraulic Brake Assist). **HILL HOLDER** for those tricky hill-starts and **PARKING SENSORS** for easier manoeuvrability. Front **AIRBAGS** and front side airbags, which protect both head and chest. **CRUISE CONTROL** helps you cruise along the motorway without having to press the accelerator pedal.

## TRACTION +

Is an aid for driving and setting off in poor grip conditions (snow, ice, mud, etc.) which allows the drive force to be distributed over the same axle when both wheels are slipping. It acts by braking the wheels with poor grip (or those slipping more than the others), thereby transferring the drive force to those which have more grip on the ground.

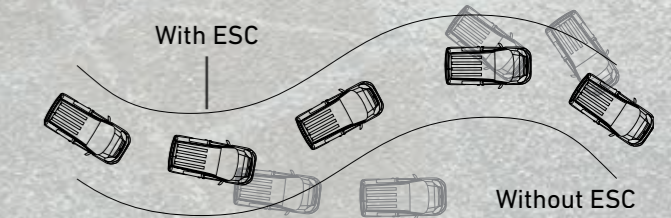

## CRUISE CONTROL

It allows you to drive on long and straight roads with few driving changes (motorways) at a pre-set speed without having to press the accelerator pedal.

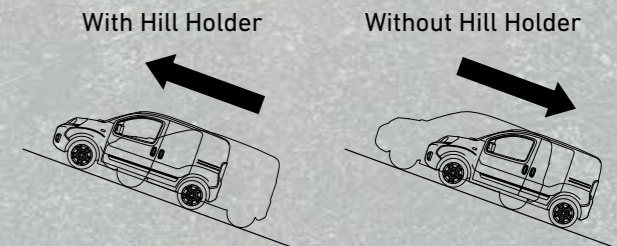

## ESC

The Electronic Stability Control is a system that controls vehicle stability in the event of tyre grip loss, helping to maintain directional control.

## HILL HOLDER

Integrated in the ESC system, it automatically activates in uphill/downhill with engine running and blocks the vehicle for few seconds without you having to press the brake pedal.

## URBAN CUSTOMIZATION

**PERSONALITY ALWAYS  
MAKES A DIFFERENCE.  
AT WORK TOO.**

The **NEW FIORINO** is complete with a full range of accessories, all top quality, created by **MOPAR: THE REFERENCE BRAND FOR SERVICES, CUSTOMER CARE, GENUINE PARTS AND ACCESSORIES** of Fiat Chrysler Automobiles.

FINANCE PACKAGES AND INSURANCE SERVICES\*

Fiat Financial Services provides both flexible Hire Purchase and Hire Purchase Balloon products to help make private and business customer's selected Fiat Professional model affordable. Hire Purchase - benefit from a regular payment structure with outright ownership of your car at the end of the term. Simply choose the car you wish to purchase, the amount of deposit you want to pay and decide your agreement term of between 12 and 60 months. Any deposit is deducted from the price of your car. You make regular payments based on the remaining balance plus the agreement interest. Once all payments have been made, you will own your car outright.

Hire Purchase Balloon - this is the same as conventional Hire Purchase with one key difference - there is "balloon" payment deferred to the end of the agreement. This reduces the fixed regular payments. Simply choose the car you wish to purchase and decide your agreement term of between 12 and 48 months. Then choose the amount of the balloon payment that you will defer to the end of the agreement (subject to a maximum set by Fiat Financial Services). The balloon payment and any deposit are deducted from the price of your car. You make regular payments based on the remaining balance plus the agreement interest. At the end of the agreement, following the settlement of the balloon payment, you will own your car outright.

For Business Users the interest charges on both products may be allowable against tax and a proportion of your vehicles' value can be written down against profits, because it is an asset on your balance sheet. Please refer to your financial advisor or accountant to find out more.
