A NEW WAY TO CONNECT

You will never feel alone on board
the IVECO WAY RANGE.

The most advanced connectivity
puts you in full control of the truck,
and always in communication
with your fleet manager if anything
comes up.

A NEW WORLD OF CONNECTIVITY

The most advanced connectivity on the new IVECO WAY RANGE puts you in full control of the truck, allowing you to operate effortlessly and efficiently by optimising the vehicle's uptime, fuel efficiency and Total Cost of Ownership (TCO).

The IVECO **Driving Style Evaluation (DSE)** enables you to evaluate the vehicle's and driver's main performance parameters, and achieve reductions in fuel consumption and **Total Cost of Ownership (TCO)** of up to 4%.

Discover the world of new services that come with the new IVECO WAY RANGE!

SAVE MONEY, IMPROVE YOUR PERFORMANCE and **SIMPLIFY YOUR WORK** by choosing our connectivity and selecting the solution that is the best match to your requirements.

FIND OUT MORE ABOUT THE **COMMERCIAL PACKAGES** YOU CAN CHOOSE YOUR SERVICES FROM. THE CLUSTERS WILL HELP YOU UNDERSTAND WHICH BENEFITS YOU WILL GET WITH EACH DIFFERENT SERVICE.

SMART PACK

This pack is always included in all IVECO WAY RANGE vehicles fitted with a connectivity box.

It provides you with information about your vehicle and drivers style through the following services:

- SMART REPORT
- SAFE DRIVING REPORT
- IVECO ON CUSTOMER PORTAL (including the APP)
- VEHICLE MONITORING & REMOTE ASSISTANCE
- EASY WAY APP

PREMIUM PACK

The Premium package, in addition to providing your vehicle information, guarantees a full follow up on the data received by putting you in contact with IVECO experts who will advise you on the best ways to evaluate and use it.

You can choose the modular options you wish to add to your package:

- FLEET MANAGEMENT
- IVECO WEB API
- PROFESSIONAL FUEL ADVISING
- IVECO TOP CARE
- FLEXIBLE MAINTENANCE
- PROFESSIONAL SAFE DRIVING REPORT

COMPREHENSIVE VEHICLE MONITORING BASED ON THE INFORMATION PROVIDED BY A SET OF SERVICES.

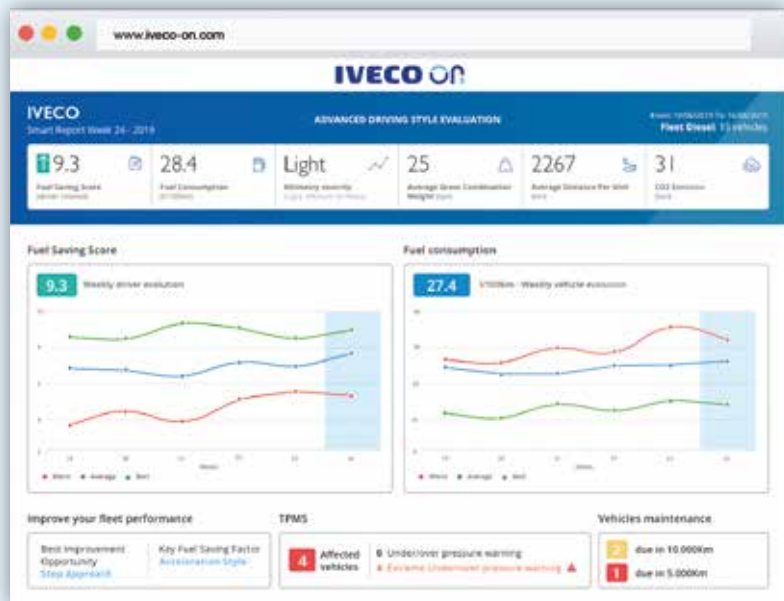

SMART REPORT

The on-board **Driving Style Evaluation (DSE)** system generates weekly reports that are automatically sent to the Fleet Manager to provide:

- Data on fuel consumption parameters and driver behaviour monitored through the DSE algorithm
- Tyre Pressure Monitoring System
- Tips to improve the driving style for fuel consumption and vehicle optimisation

It is possible to display both the overall results of the entire fleet and the details of each vehicle to get a better understanding of how to reduce fuel consumption.

SAFE DRIVING REPORT

Together with the Smart Report, you will receive this new report that will allow you to measure your safety on board. The Safe Driving Report is created exclusively for you and it is free of charge. Thanks to the Driving Style Evaluation we will provide you parameters that will help you be more cautious and safe while on the road!

Through the IVECO ON Customer Portal the Fleet Manager can monitor the vehicle's fuel consumption and the driver's driving style in order to optimise the fleet's performance.

A host of features help them take the best advantage of the data:

- Dynamic monitoring
- Historic data to make comparisons
- Dedicated tutorials
- Downloadable details by vehicle/driver
- Customer Dashboard for Fleet Fuel Consumption monitoring
- Dedicated vehicle map by mission to check the routes taken

Find out in the Marketplace section which additional services are available to you.

IVECO ON APP

Available in Google Play and App Store, provides the Fleet Manager and drivers with further information, such as:

- DSE score and comparison
- Fuel consumption trend and comparison
- CO₂ emissions
- Gross Combination Weight (GCW) average trend
- Average distance trend
- Mission difficulty score

The drivers' ranking section shows the Fleet drivers' ranking and lists the best, average and worst drivers.

Motivate drivers to be the best!

The worst driver action plan is also available to help them improve the score.

DRIVER,

VEHICLE MONITORING & REMOTE ASSISTANCE

IVECO connectivity will help maximise your vehicle's uptime and productivity through a proactive approach with the Remote Assistance Service tool for remote diagnostics, teleservices and over-the-air software updates.

We help you get more time on the road by remotely monitoring your vehicle. If a warning about a component comes up, we receive a fault code alert and our connectivity managers will call you to advise on planning a stop at a workshop for the necessary service intervention.

EASY WAY APP

Take your digital life on board and mirror your mobile device on the new infotainment system to use all its functionalities in full safety while driving.

Download the EASY WAY app from Google Play or the App Store to enjoy the experience in the new cab.

CAB CONTROL

The new app, designed to make the drivers' life easy, enables you to control the cab features directly from your smartphone allowing you to:

- Close doors or windows with a simple click
- Switch the lights and music on and off while resting in your comfortable night area
- Regulate the temperature in the cab by controlling or programming the air conditioning and heating systems from the app.

IVECO ASSISTANCE NON-STOP

You can use your device to activate the IVECO Assistance Non-Stop service in case of breakdown. It will let the operator know where you are through the geolocation function.

DRIVING ASSIST

After each trip you can access the DSE data which will help you to reduce fuel consumption and enhance your safe driving style.

REMOTE ASSISTANCE SERVICE

You can request remote assistance during one of your stops or in case of vehicle issues. IVECO or its Dealer Network can diagnose the vehicle remotely. Connectivity Managers identify necessary electronic systems updates and perform them over-the-air.

CONTROL ROOM

Thanks to the connectivity and the fault alerting, IVECO can monitor your vehicle by anticipating unforeseen stops.

The Verizon packages, introduced with the new IVECO WAY RANGE, offer a dedicated fleet management service tailored to your requirements. In addition to the features shown in the table, Verizon also offers pre- and after-sales support, which varies market by market to match local demand.

FLEET MANAGEMENT BENEFITS

- Improve vehicle visibility with geolocation intelligence
- Increase fleet administration capabilities through insights on driver's workdays (time on site, fuel and battery levels)
- Stay compliant by recording driver's activities (such as rest and driving hours) and downloading the remote tachograph
- Receive advanced reports, monitoring the entire fleet and individual drivers
- Connect your team
- Get experts tips on how to improve your fleet performance and driver safety

IVECO WEB API (APPLICATION PROGRAM INTERFACE)

This service is intended for those customers who want to create their own dashboards and reports, using the IVECO official vehicle data. It allows flexible data integration in the customer's own systems and facilitates the management of IVECO-generated data together with that of other brands' vehicles in a single tool. Microsoft stores the data from IVECO vehicles in real time daily on a cloud that aggregates the information for each customer, then makes them available on to customers' systems.

PROFESSIONAL FUEL ADVISING

IVECO TCO Advisor will contact you quarterly to provide you with face-to-face consultancy and advice on how to reduce fuel consumption, based on the analysis of the technical parameters that have the biggest impact, such as tyre pressure, driver behaviour (DSE, idling, speed, cruise control), vehicle malfunctions or, if applicable, the trailer.

IVECO TOP CARE

IVECO provides you with an extra care solution as a Premium Customer, supporting you to repair your vehicles within 6 hours.

We give you the priority you deserve and we make internal escalations as required (for example, if a Part or extra diagnostic support are required).

The connectivity advisors will keep you updated on the timing of repair so you can organize your schedule accordingly.

In case the repair takes longer, we offer additional services to support you while you wait for the final resolution.

FLEXIBLE MAINTENANCE

With the aim of continuously maximising your Maintenance interval, we keep your vehicle and components under control in order to tailor a flexible and personalised Maintenance Plan to your operation, based on the real use of the vehicle, with the following advantages:

- Reduce TCO by converting unplanned stops into planned stops
- Reduce unplanned stops due to vehicle's behaviour deviating from theoretical usage
- Maximise the life of monitored components based on the real usage of the vehicle
- Enable dealers to plan your vehicle's maintenance in advance based on the real residual life of monitored components

Try the new Flexible Maintenance service: it is included in the Elements packages!

PROFESSIONAL SAFE DRIVING REPORT

In order to allow the Fleet Manager to be aware of all risk factors, we offer the market-exclusive Professional Safe Driving Report, that will also notify you of any violations of road rules or the failure to carry out "rest shifts". You will be contacted by our TCO Advisor for consultancy on the received data.

The background of the entire page is a deep blue color. At the bottom, there is a complex network of glowing blue lines and dots, resembling a digital or data network. Two large, rounded rectangular shapes are overlaid on the background: one at the top and one at the bottom, both with a thin white outline. The text is positioned in the center-left area of the page.
