

Search results for details and implementation status of applicable recalls, etc.

The entered chassis number [GGH20-8076562]

[Search results]

The details and implementation status of recalls etc. applicable to the vehicle you entered are as follows.

No.		Contents	Notification date (start date)	Implementation status
1		Takata Airbag Recall	Reported on March 28, 2018	Completed

We sincerely apologize to all our customers for the inconvenience caused.

If all items are displayed as "Completed," the recall work has already been carried out, and there is no need to bring the vehicle in for repairs.

We apologize for any inconvenience caused to customers with any items marked as "Not yet carried out," but we ask that you please contact your dealer as soon as possible to arrange a date and time to visit and receive repairs.

If you have any questions, please contact your nearest dealer or the Customer Service Center listed below.

If you are not sure where your nearest dealer is, please use the ["Dealer Search" function to check.](#)

- [Note]
- * Recalls and improvement measures were searched from information from January 1999 onwards, and service campaigns were searched from information from January 2002 onwards.
 - * It may take up to two weeks or more for the results of a recall, remedial action, or service campaign to appear in search results after repair work has been carried out.
 - * The implementation status indicates the status of repairs being carried out within Japan.

If you wish to continue searching, please enter the chassis number and press the "Search" button.
